

# BOWL-SHAPED LEVELLER

## Product description and intended use

The bowl-shaped leveller, designed and produced by **SEÑOR**, is a fastening accessory made of 1.5 mm cold rolled steel DC03 with a zinc-patinated finish. It has two anchor points providing more safety.

Its main purpose is to hang gypsum ceiling systems and/or heavy objects from the ceiling, such as FCU'S or ducts. This piece can be used in any surface: timber, concrete and iron.

This product is available in 100 and 30 units boxes.

## Main benefits

- ✓ Robustness: 1.5 mm thickness allows more security than the rest of fastening accessories that are usually 1 mm thickness or even less.
- ✓ The two anchor points guarantee a stabler support.
- ✓ It can be used in any surface: timber, concrete, iron.
