

3D exploded view of the SENOR 45 V (Active) sensor assembly. The assembly consists of a base plate (13) with a black top layer (12) and a grey bottom layer (11). A green sensor head (10) is mounted on the base plate via a green spring (8) and a green nut (9). The sensor head is connected to a grey cable (6) which is secured by a green cap (3) and a green nut (2). The sensor head is labeled 'SENOR' and '45 V (Active)'. Dimensions are provided for the base plate: 5 mm for the top layer, 48 mm for the total height, and 14 mm for the bottom layer.

10: CN/8
11: BEC-3
